"You dramatically increase your value to others if you always maintain a calm and pleasant manner." - Daniel Lapin

Thou shall prosper bible verse.

Believing that making money is a selfish activity will undermine anyone's chances of success. He cofounded Pacific Jewish Center in Los Angeles with media personality Michael Medved and was named one of "The Top 50 Rabbis in America" by Newsweek. Why would a placebo have any therapeutic impact at all? It brought to light many bible nuggets and simplified difficult monetary stances. Obviously people who view money lending, banking, or finance as sleazy and unworthy occupations are hardly likely to engage in them. Almost without fail, in many countries, when government policies fail to deliver on their promises, politicians denounce the greed of Wall Street. As a rabbi, I have always seen the Torah as a comprehensive guide to how the world really works. You receive money in proportion to how helpful you can make yourself to other people. Listening to this book is a huge head start on having real predictable success! Highly recommended! This book will change the way you look at business and life. This allows the candles to serve their exclusive symbolic function and perhaps stimulate a discussion among family members. God Bless. Turning over a new leaf and making a fresh start is enormously liberating. Ten Commandments for Making MoneyBy Daniel LapinCopyright © 2010John Wiley & Sons, LtdAll right reserved.ISBN: 978-0-470-48588-0The First CommandmentBelieve in the Dignity and Morality of BusinessMaking money is much harder if, deep down, you suspect it to be a morally reprehensible activity. In other words, in the real world equations can be read both forward and backward. He claims almost no businesses are doing any crime etc etc. For example, in marital conflict, the defender's advantage is acknowledged by most military experts to be as much as five to one. Amazingly clear and powerful. These natural and positive aspects of your public persona flow inevitably from feeling pride and passion for your work. However, three hours later, when I found myself again lusting for just one more slice of the same pie, the voice of conscience was far weaker. Developing a deep conviction of the intrinsic morality and dignity of business injects vast power into any enterprise undertaken. FEEL VIRTUOUS, GROW WEALTHY Most people understand that they enjoy greater success when they feel good about their activities. Well narrated and one that needs to be re heard till it's in our system and becomes natural behaviour. All scientist, except a few, paid by some industries, says otherwise. In this way, early in their development, children are inculcated with the idea that not only is money not bad, but it often can be a result of self-improvement. One Jewish holiday in particular seems to focus on money. However, lending money to a needy man elevates him into an independent businessman. There is a very real and practical reason that companies engage me to teach their executives and employees that the process and practice of business, although as vulnerable to misdeed as any other, is inherently dignified and moral. As a result, you will fail to talk about your work, thus forfeiting the everpresent advertising opportunities that present themselves in ordinary social interaction. In California, prison guards can sock away \$300,000 a year with overtime pay. This means that the defender's conviction of being right is enough to require a five-to-one superiority on the part of the invader in order for the attacker to stand a good chance of success. Far less familiar are two details concerning the celebration: 1. It requires your attention because it is so packed with wisdom. But pundits and politicians prefer to demonize business. Everyone finds frequent opportunities to cross the line in pursuit of just a little more. He wants to protect the rich, so that they can hire him for speaking engagements. That held me off for a while, but then my stomach enzymes began howling in chorus for just a taste of that chocolate cream pie and I am sorry to confess, I yielded. Rabbi Daniel Lapin is a radio talk-show host and author. Even the human body does best when its spiritual and physical sides are synchronized. The money is a reward for the light they have gained during the past year. As we shall soon come to see, nothing could be further from the truth, solely for the personal use of visitors to this web site. Like other people, Jews enjoy giving gifts of various kinds on all sorts of occasions. No, you are not a swindling rogue, really powerful book. I highly recommend it to anyone I know who is looking to make more money and understand money better. It is not just a matter of knowing what kind of investments to seek or knowing how to write a resume. Part of the observance is for the light from those candles to have no utilitarian purpose. How could it be otherwise? The last words in that book is: "Feed the poor". It might make more sense to point to the greed of government employees as the cause of economic stress. People's bodies perform better when their brains and souls are on board with the program. It will give you all the tools you need to prosper. It follows that you would have vast additional power to inject into your enterprise if you could simply develop a deep conviction of its intrinsic morality. For instance, I expect no conflict between Torah wisdom and chemistry, and I find none. When he mixes in his opinions, which are very right wing, it's not. Almost everyone knows that Jews observe Chanukah by lighting candles on each of the eight nights of the holiday. Placebos and their strange effect have been known since the late eighteenth century. They suggest that government and nonprofit organizations do more for poor people than the private sector does and that business professionals need to be restrained from committing crimes in their single-minded pursuit of profit. It usually suggests that Dagwood has just had a bright idea. This word comprises the first four out of the five letters making up the Hebrew word Chanukah. Consider the role of placebos in modern medicine. A business professional who sees himself as already a swindling rogue just by virtue of his occupation-a greedy business professional profiting by seizing the earnings of gullible fools-should have little trouble seizing just a little more. challenges the idea of retirement and inviting to explore creative entrepreneurship. All rights reserved. You have to work on changing yourself. Chanukah is a reminder that educating oneself is surely one of the best ways of increasing one's potential to be helpful to others. This campaign has been so pervasive that everyone has inevitably been conditioned to believe it, at least to some extent. I had already done that three hours earlier. Step one in the process of increasing your income is to begin wrapping yourself around these two related notions: (1) you are in business, and (2) the occupation of business is moral, noble, and worthy. He says that poor people should take care of themselves, even though judaism uses lots of time on helping the poor. That include how to grow spiritually and financially. There is a custom of giving children monetary gifts on Chanukah. Well, if you aren't sure, take a glance at your Sunday comics and see what a light bulb shown above the head of one of the characters means. This way his dignity is preserved, and he retains the psychological self-image so necessary to conducting business successfully. Then, conjuring up what appears to be an anti-Semitic stereotype, the Code declares, "And even to examine your money and to count how much money you have may not be done by the light of the Chanukah candles." What! And I suppose that on all other occasions on which Jews light celebratory candles, such as those that usher in the Sabbath each Friday night, the first thing they choose to do is count their money? The Jewish principle underpinning this observation is found in Sayings of the Fathers: "Ben Azzai said, hasten to commit good acts and flee from misdeed since every good act encourages another in its wake, while every misdeed eases the way to the next." This is one reason for the enormous emphasis on tzedakah, the giving of charity. Money is not the same as having a pen or a cigar lighter in your pocket. For instance, on Purim, the feast of Esther, people give gifts of food delicacies to one another. No part of this excerpt may be reproduced or reprinted without permission in writing from the publisher.Excerpts are provided by Dial-A-Book Inc. What does light symbolize to people? Thus the Code of Jewish Law warns that you must not count your money by the light of the candles, even though you might have imagined that especially on this holiday that is exactly what you should do. Conversely, if you are embarrassed about your business, you set yourself up to fail. By way of example, employees of New York City have enjoyed raises of 63 percent since 2000 to an average of \$107,000 a year. That is because people tend to feel morally justified in defending their homes and families, whereas an attacker often doubts the righteousness of the cause. For better or worse, humans are holistic. Even more important, this approval helps people find passion and enthusiasm in what they do. Helping your mind to know and believe that what you do professionally is good, noble, and worthwhile in itself helps to fuel your energies and propel your efforts. By contrast, Jews always viewed putting one's capital at risk to enable someone else to make a profit as an honorable way to earn a living and to help others. If your life is bifurcated into the work arena and the social arena with the two never meeting, not even in your own mind, then that is one of the first repair jobs you should undertake. However, Chanukah is the only holiday on which not only is it not distasteful to give a gift of money, but it is viewed quite positively, especially for children. I'll be recommending it to many people! When he is referring to judaism, and the bible, it's great. Whenever the ghost of unintended consequences strikes again and well-intentioned but badly conceived state programs erode the economy, political leaders trip over one another in their eagerness to blame business. What is more, government is often complicit in this slander of business. The delicious taste, I discovered, was tempered by the slightly bitter taste of failure. This is so central a feature of the Chanukah holiday that you might have been forgiven for supposing that counting your money in front of the holiday candles would be a way of enhancing the link between Chanukah and your money. God can once again regard us as being at one with Him. You become a slightly different person, and people notice the change. It has helped me to be more confident in making money, and showed me the spiritual power and financial power that you gain from giving away money and helping other people. It is not surprising that many other large groups in the United States have come to believe the same. This book contains basic Economics, Psychology and Philosophy material that are incredibly useful for business and life. He claims that no one knows if global warming does even exist. For this reason, they are customarily lit in a room in which other lighting, perhaps the regular electric lighting, is blazing. The Jewish hierarchy of charity regards lending someone money to go into business as more noble than simply giving him the money. This author has a lot of greed in his heart. The origin of the word atone was when one viewed oneself as being at one with God. MONEY IS HOLY, AND HOLIDAYS ARE LINKED TO MONEY Indeed, overcoming one's skepticism about the nobility of money seems to be an intrinsic part of the original Divine plan for Jews as reflected in some of the Jewish holidays. This is why ancient Jewish wisdom insists that approval of our friends is an important aid to a person's business success; and likewise, people are stimulated and encouraged by their friends' approval. Rabbi Lapin lives with his family on an island near Seattle. Highly recommend!! This book teaches sound principal to living life to the fully. Yes, education and money are very closely linked. Few sales professionals wholeheartedly and effectively promote products or services they feel to be shoddy or overpriced. You may find yourself smiling at these words; but once you have overcome your skepticism, you will have taken a giant step toward increasing your revenue. I know that I have, and I recall how much easier it was to raid the refrigerator the second time. That's not what Daniel Lapin wants. Even the name of the holiday, Chanukah, is an expansion of the Hebrew word for education. As I explained in the Introduction, who I am and how I earn my living are inextricably bound together. You should certainly count your money on Chanukah, just not by the light of those special candles. These two quirks of

observance are linked by their explanation. Drugs are one vital element of medicine; the patient's mind is the second. Not only does your moral ambivalence inhibit all-out effort, but it also triggers a shame reflex. Thrown in business and other benefits and the gap widens to 42 percent. I can recommend another book on the same subject: "The Money Code: Become a Millionaire with the Ancient Jewish Code" This is only bible text, and other jewish text from the torah etc, and no personal political views, or greedoriented. Excerpted by permission. You will become known for telling entertaining accounts of amusing incidents in your professional life. Thus chemistry might remind me that just as two atoms of hydrogen combined with one atom of oxygen results in one molecule of water, so can a molecule of water be split into its constituents, hydrogen and oxygen. Stories about events in your business day can inspire others, and they will be moved by poignant interactions you relate. Similarly, if feeling passion and pride for my work helps me talk enthusiastically about what I do, so does talking excitedly about my work increase the passion and the pride I feel for it. They have a special symbolism that is linked to the money but just a little loftier. As you will see, that view of business is not universally shared. Feeling virtuous about what you do is an enormous advantage and one that has been a part of Jewish tradition since time immemorial. You can still make millions, but if you don't do it from a place of love, you will do it from a place of greed. Jesus said: "You can not worship two masters", and the author here clearly worships money more than his fellow man, nature and Gods words. People who view themselves as ethical and virtuous are far less likely to step over a legal line than are people who feel that they are already deeply involved in improper conduct. This is why most people choose doctors in whom they have confidence. You see, increasing your ability to create wealth is not just a matter of knowing a technology. Joining together the themes of the candles and the money, we find the reason for the custom of giving children money for each of the eight nights of Chanukah in amounts that are proportional to the success of their studies. The point is that on Chanukah you are supposed to be supersensitive to your money and particularly grateful for it. I remembered how I had vacillated back and forth three hours earlier. This is how people are created. (Continues...) Excerpted from Thou Shall Prosperby Daniel Lapin Copyright © 2010 by John Wiley & Sons, Ltd. "How could I ruin the good efforts of the past week?" I had asked myself. Generally speaking, media, entertainment, and public education in the United States all subtly denigrate business. A patient's recovery is directly linked to how much confidence that patient has in his or her medical advisers. In reality, you are a noble person providing for others in a marvelous environment that benevolently rewards you for your consideration. Similarly, in business everyone encounters numerous opportunities to slice off a piece of pie that would best be left alone. This is what it might look like expressed as a mathematical equation: Old you + More money = New you Now, subtracting "Old you" from both sides of the equation (remember that whatever you do to one side of the equal sign you must also do to the other), we have More money = New you - Old you In other words, in order to acquire more money, you need to work on far more than merely learning new skills. JEWS BECAME BANKERS TO HELP OTHERS, NOT AS A LAST RESORT In Western culture, the term "moneylender" has come to be an insult and an indictment. State and local government workers are paid an average of \$25.30 an hour, which is 33 percent higher than the private sector's \$19, according to Bureau of Labor Statistics data. So many great common-sense, Biblically-based instructions on all aspects of business. The latter condemns the recipient to be a beggar without enough self-respect to launch his or her own enterprise. I'm making more money now because I read this book. Have you ever cheated on a diet to which you were committed? If you feel really good about your profession, you sweep others along with you on the waves of your enthusiasm for what you do. If there is one Jewish attribute more directly responsible for Jewish success in business than any other, it is this one: Jewish tradition views a person's quest for profit and wealth to be inherently moral. You shrink into yourself and appear apologetic and embarrassed. But lots of good passages in this book too. A truly incredible book which goes into to depth on so many more issues than just money Loved it. It is almost as if your body knows what is in your mind and responds accordingly. Hardly. A substantial and meaningful increase in the amount of money you own changes you. Both, after all, are instruments that explain how the world works, each from its own perspective. rebecca marroquin 02-04-21 having the audio just isn't enough, this book is amazing! Truly anointed for guiding those who desire to live out God's Will for there life♥ Amazing book, full with thousands of years of wisdom. Dr. Andrew Newberg, a radiologist and psychiatrist at the University of Pennsylvania, describes a cancer patient whose tumors shrank when he was given an experimental drug, grew back when he learned that the drug was ineffective, and shrank again when his doctor administered pure water but told him it was a more powerful version of the medication that does work. The definitive Code of Jewish Law, compiled in 1563 by Rabbi Joseph Karo of Safed in the Holy Land, emphasizes that absolutely no benefit should be obtained from using the light of the Chanukah candles. It allows one to recover one's morally driven self-restraint that might otherwise have eroded beyond the point of usefulness. My yearnings for that chocolate cream pie were strongly countered by the realization that if I yielded to temptation, I would be turning the entire previous week of discipline into a farce. His Torah teaching programs reach over a hundred thousand followers worldwide. It may not be easy, but it can certainly be done, and it works. If your chosen means of contributing to the world, and incidentally providing for your needs and desires, is immoral, then you must stop doing it because it will inevitably taint your entire existence. The greedy or rapacious business professional is soon recognized for the thug he is and is usually weeded out by the simple process of nobody wanting to deal with him; not as supplier, customer, or employee. The annual observance of Yom Kippur, the Day of Atonement, allows Jews to reset the odometer of one's moral self-evaluation back to zero, as it were. Instead of winning the approval of people whose opinions you value, you feel them radiating an almost palpable disapproval for your profession. This is hardly the posture of success. Someone may well ask, "Why do we have candles lit if there is already plenty of light in the room?" Another may inquire, "Can we turn off the lights so we can see the candles better?" 2. Now if extra money makes a new person of you, it easily follows that making a new person of you is a step on the road to having more money. After all, this time I would not be destroying a perfect record of disciplined restraint. Rabbi Lapin is a headline speaker for hundreds of synagogues, churches, companies, and organizations. Enjoyed this book more than I can possibly describe! I've owned businesses for 24 years, and I wish I'd had this book back at the beginning.
